

CABLE STORAGE REELS

STORAGE OF WIRE OR CABLE

CABLE REEL

CRANK OR MOTOR DRIVEN REWIND

Standard Equipment

Ball bearings both sides
Heavy-duty construction

Optional Equipment

12-volt or 115-volt motors

American Reels Cable Storage Reels, are a perfect solution for organizing and storing cables. Our cable reel is designed to hold a wide range of cable types and sizes, including electrical cords, extension cables, and chains, while the durable construction is made to withstand heavy use and exposure to the elements.

Constructed with high-quality materials, our cable reel is built to last and withstand the rigors of daily use. With a generous storage capacity, our cable reel can hold up to hundreds of feet of cable, depending on the size and type of cable. This makes it ideal for professional use, including construction and mining sites.

The hand crank rewind hose reel is ideal for a variety of applications for commercial and industrial use for instances that do not require any external power source for operation. Electric motor reels feature an automated storage and retrieval systems that utilize an electric motor to power the reel. These reels can be mounted on walls, floors, or ceilings for convenience and come in a variety of sizes to accommodate different lengths and diameters of cable.
