Roller guide
Powder coat finish

American Reels Deadman Control Reels are a reliable and innovative solution for handling hoses in industrial settings. One of the key benefits of our deadman control reels are the safety features. The system includes a deadman switch that immediately stops the reel in case of an emergency, preventing accidents and injuries. Additionally, the system is designed to reduce the risk of hose kinking or tangling, which can also cause accidents.

The system makes it easy to store hoses neatly and efficiently, reducing clutter and freeing up space in the facility. It also makes it easier for workers to access the hoses when they need them, saving time and increasing productivity. A versatile solution that can be customized to fit the specific needs of each facility. The system comes in a variety of sizes and configurations, allowing businesses to choose the right option for their particular application.

With its advanced safety features, convenience, and customization options, it can help businesses increase productivity, reduce costs, and improve worker safety.
