

HAND CRANK (DIRECT CRANK) REELS

3/8" TO 3/4" HOSE
MANUAL REWIND

Standard Equipment

- 3,000 psi
- Ball bearings, both sides
- Heavy-duty construction
- Powder coat finish

American Reels manual rewind hand-crank hose reels are designed to store hoses, cables, and cords, making them easy to use and easy to access when needed. These reels are commonly used in a variety of industrial and commercial spaces, do not require any external power source and can be easily moved from one location to another.

This model uses a direct crank (DC) that has a handle that connects directly to the shaft from the side. 1 rotation of the handle = 1 rotation of the reel.

The hand-crank mechanism allows for easy rewinding of the hose, while the durable construction is made to withstand heavy use and exposure to the elements.

These reels can be mounted on walls, floors, or ceilings for convenience and come in a variety of sizes to accommodate hoses of different lengths and diameters and are ideal for use in a range of settings, including construction sites and factories.
