American Reels LP Gas (Liquid Propane Gas) hose reels are specialized hose reels designed to safely store and dispense LP gas. Our LP Gas reels are commonly used in industrial and commercial settings, such as in welding shops, service stations, and RV parks.

Constructed with a sturdy metal frame and a high-quality spool or drum, our LP Gas hose reels are designed to securely store and easily dispense LP Gas hoses. Our spring operated reels for LP gas applications come in a variety of sizes and configurations to accommodate a wide range of conditions.

When selecting an LP Gas hose reel, it's important to consider the length of the hose, as well as follow all safety guidelines and regulations for the storage and handling of LP gas.
