

PORTABLE REELS

1/2" TO 1" HOSE MANUAL REWIND

Standard Equipment

3,000 psi on 1/2" & 3/4"

500 psi on 1"

Heavy-duty construction

Powder coat finish

American Reels portable reels are designed to be easily moved from one location to another, making it ideal for job sites where mobility is key.

Models feature your choice of a Gear Crank (Pinion Gear) or Hand Crank (Direct Crank) rewind reel. These reliable and efficient solutions are designed to quickly and easily retract your hoses without the need for a motor or spring. Both hand-crank mechanisms allow for easy rewinding of the hose, while the durable construction is made to withstand heavy use and exposure to the elements.

Our portable reels come with various features such as locking to prevent the hose or cable from unrolling accidentally while in movement. Other benefits include increased efficiency and productivity, improved safety, and reduced wear and tear on hoses, cables, and cords. Portable reels also help to organize and maintain a clean job site, while the compact design ensures easy storage and transport.
